

Frontend : <http://ec2-34-229-66-210.compute-1.amazonaws.com/>

Backend :

Public DNS : ec2-54-157-155-216.compute-1.amazonaws.com | open address

- Used same from frontend app (ENV) to point to backend API even without Domain Name

Used

- Setup Security Groups
- Setup VPC, Subnet, Internet Gateway, Route Tables
- EC2 Instance

Key pair assigned at launch myRSA-pem-NVirenia

- Learn Setting up manually SSH Secrets on EC2-Instance, support multiple RSA Priates keys SSH, Putty, WinScp using PuttyKeygen, PPK files
- Setup Fresh Editor
- Setup VSCode Remote Connection

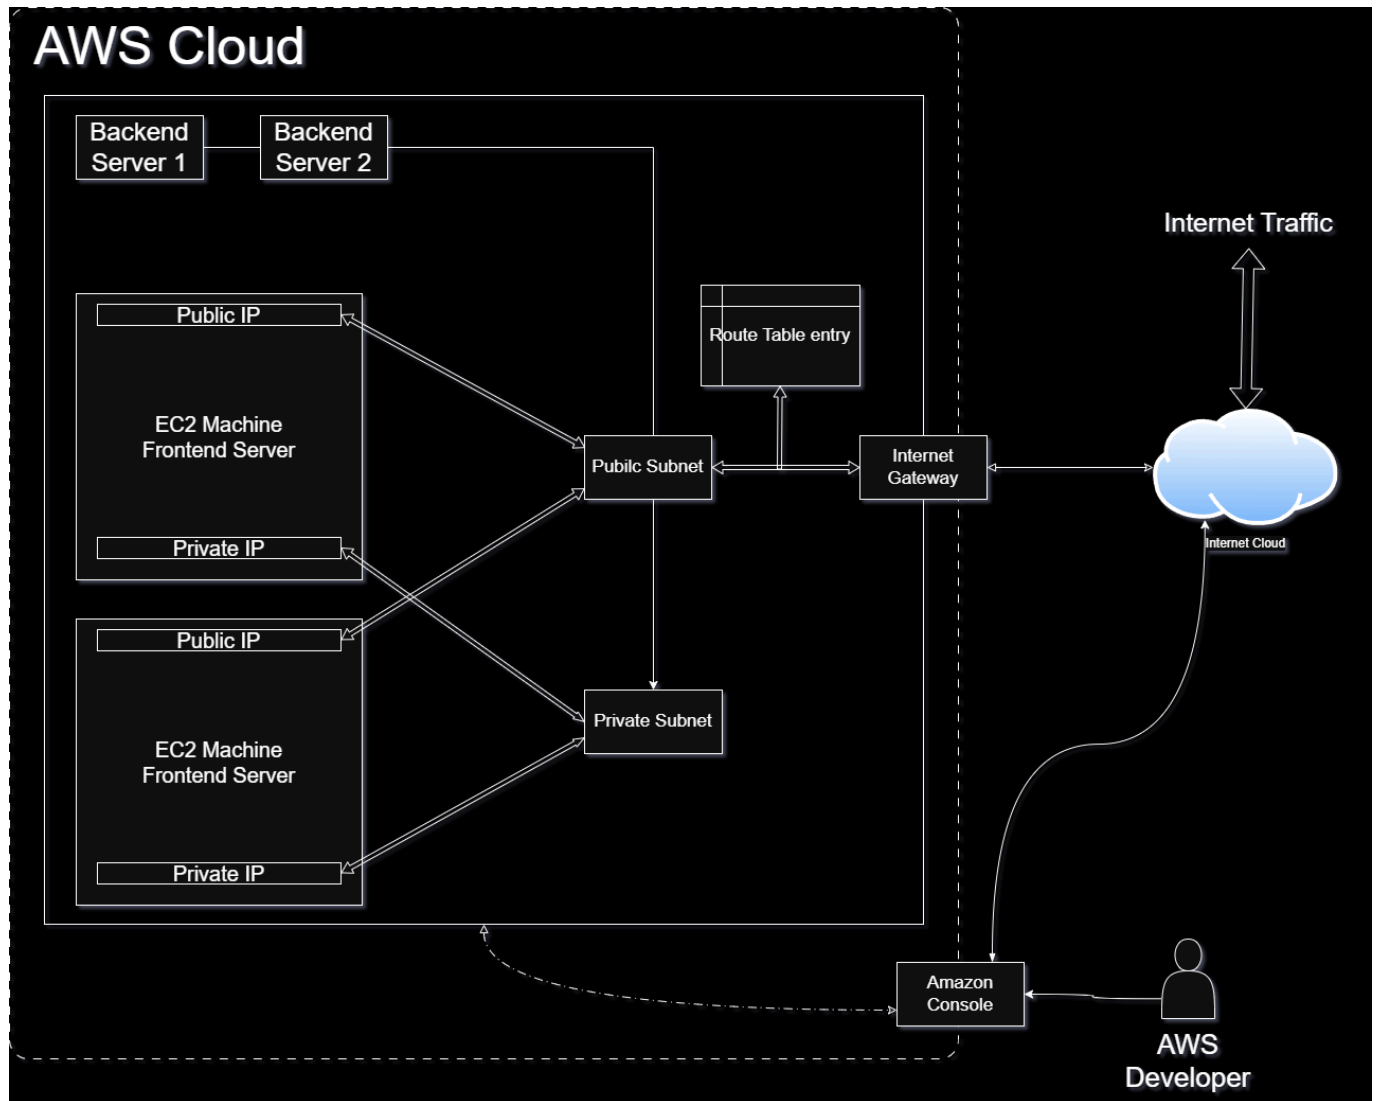

Database :

The screenshot displays the MongoDB Cloud Portal interface. On the left, the 'Data Explorer' sidebar shows the 'trips' collection under the 'test' database. The main area shows a sample document from the 'trips' collection:

```
{
  "_id": "6a408c94c9de83a7874c7cfe",
  "srno": 1,
  "date": "2025-07-05",
  "bckno": "JAL304",
  "dolo": "5461566057",
  "bz": "MH18869470",
  "destination": "DHULIA",
  "soldToParty": "ACC MH",
  "shipToParty": "ACC MH",
  "qty": 10,
  "deliveryAckReceived": "YES",
  "driver": "",
  "diesel": 10,
  "dieselRate": 100,
  "pump": "MAULI",
  "other": 1000,
  "kw": null,
  "tripTotalExpense": 100,
  "invoiceNumber": "ACC2025-26-01",
  "company": "ACC",
  "doType": "STO",
  "collate": 200,
  "tripAmount": 2000,
  "supplyRate": 300,
  "supApplicable": "YES"
}
```

The footer indicates the alert system status is 'All Good' and provides copyright information for MongoDB, Inc. (2026).
